

I am writing about K-LOVE radio station. I am disturbed to hear about the new LPFM service which could force K-LOVE off the air. It would be a huge mistake to do that as K-LOVE is a greatly positive influence in our community. I am disturbed by all the garbage on our airwaves- not to mention TV, and K-LOVE is a perfectly safe and uplifting station that has a positive influence on my husband and myself not to mention our 2 children. This is a wholesome and good station that I hope my children can grow up listening to. If this station is not allowed to continue as is I fear that you will be putting out a light that our dark world needs. I hear daily how this station impacts thousands of lives for the better. Our kids and adults need a station like this to turn to if they are feeling road rage or anxious. My experience has been that it can change my negative attitude. We have so few truly GOOD things to fill our heads with- please allow K-LOVE to continue to do it's public service to the millions who need it- that includes me.
